December 2003

To Whom It May Concern,

It has been our pleasure to have Jesse Hart work part time since May of 2002 at Forestfarm, a national mail-order nursery. Of the many high school students we have had help us over the years, Jesse has proven to be the most reliable and the most diligent. Mature for his years, he has been professional about any task he has been given to do. He has been responsible about being here on time or letting us know ahead of time if that wouldn't be possible. Although watering our diverse selection of plants in summer can be challenging, exhausting and also boring, it is one of the most important jobs in the nursery. Jesse asked the questions that needed to be asked to do his job well and then did it. In addition, Jesse learned our plant-packaging procedures and helped willingly and efficiently with that task as well.

We have all enjoyed getting to know Jesse. He is personable and confidently took part in lunch-time conversations with a much older crew.

Jesse has the initiative and hard-working ethic to achieve any goal that he sets for himself. We can highly recommend him for any scholarships, college applications, or jobs that he should choose to pursue.

Sincerely,

*Ray & Peg Prag*
